CURE FOR PIMPLES ON THE FACE.

THESE complaints are among the most painful and dreadful to which human nature is subject. Comstock & Co's Extract of Sarsaparilla, in all scrofula diseases, cutaneous complaints, ulcers, mercury in the blood, pains and swellings of the bones, and diseases of the liver is a most excellent medicine. It first operates upon the blood, removing all the diseased particles it contains, and other parts of the system. It is concentrated extract, containing the very essence of the root, and prepared in the most scientific manner. Those who have been for a great length of time suffering under any of the diseases named, will find this Sarsaparilla of great benefit. As a general Spring Medicine to purify the blood, and give the vital fluids their natural circulation, to expel from the bowels all their morbid secretions, and to change the general habit of the system—in short, to prepare the whole physical system for the enervating heats of summer, there is no preparation so efficient as Comstock's Sarsaparilla. Price 50 cents per bottle, or $4 per doz. Warranted equal to any sold at $1 per bottle.

Sold in Bangor by G. W. LADD, and HALL & YOUNG. 3tawd and w6m sept 27.

STARTLING FACTS.

HUNDREDS of children and adults are lost yearly with worms, when some other cause has been supposed to be the true one.

It is admitted by all doctors that scarce a man, woman or child exists but what are sooner or later troubled with worms, and in hundreds of cases, sad to relate, a supposed fever, scarlatina, cold, or some other ailing carries off the flower of the human family—while in truth they die of Worms! and these could have been eradicated in a day by the use of a bottle of KOLMSTOCK'S VERMIFUGE, at the cost of a quarter of a dollar!

Dr. John D. Buzzell's Family Medicines.

VEGETABLE BILIOUS BITTERS.

THESE Bitters are particularly serviceable when used alone in all cases of obstructions in the stomach and bowels, in chronic affections of the liver, and all other derangements and diseases proceeding from a diseased state of that organ; such as loss of appetite, foulness of the stomach, costiveness, dizziness and headache, Jaundice; Asthma, Dropsy, Rheumatism, Indigestion, Dyspepsia, Faintness and sinking in the stomach, eruptions on the face and neck, and are an excellent purifier of the Blood. When these Bitters are taken in connection with the Vegetable Pills and Anti-acid preparation will remove the most inveterate chronic diseases, even in cases where mercury has been unsuccessfully administered.

VEGETABLE BILIOUS PILLS.

The reputation of these Pills stands unrivalled for the cure of nervous or Bilious headache, costiveness, indigestion, dyspepsia and all disorders of the stomach; they are so compounded as to be slow in their operation, but after they have thoroughly operated upon the stomach and bowels, one or two pills is sufficient to purge the system, and in their operation they not only purge and cleanse the stomach and bowels from every impurity; but strengthen and give new life and vigor to the digestive organs, &c.

ANTI-ACID AND CARMINATIVE PREPARATION.

This medicine has been successfully used for sourness and wind in the stomach, and is a valuable specific in all cases of nervous irritability and hysteria, hypochondria, asthma, palsy and appoplexy, &c.

COUGH MIXTURE.

The reputation of this mixture stands unrivalled for the cure of all coughs proceeding from colds, asthma, chronic, catarrh, influenza and inflamation of the lungs or pleura, and chronic affections of the liver which frequently produce consumption. It is decidedly the best medicine ever discovered for the cure of the hooping cough.

COMPOUND STRENGTHENING PLASTER.

All who have used this plaster have found it to be a sure remedy for pain or weakness in the stomach, back, side, chest, loins, muscles, joints, &c. and for lung and liver complaints, coughs, colds asthma, rheumatism, etc.

HEMORRHOIDAL, OR PILE POWDER.

This medicine may be relied upon to give immediate relief, and its use persevered in, will effect a certain cure of this truly painful and troublesome disease. This specific has been used by the proprietor in his practice for more than fourteen years, and he has never known an instance where it has failed to effect a cure. Try it.

Ointment for the cure of the Itch and all other cutaneous ERUPTIONS.

This ointment is a safe and efficacious remedy for the cure of the Itch and all cutaneous eruptions, and for a scald head, one of the worst of humors.

It is a sure remedy for sores and humors upon the face with which children are afflicted, curing without leaving a scar, observing in all cases to take according to accompanying directions, the anti-eruptive or cooling powder.

ANTI-ERUPTIVE OR COOLING POWDER.

A sure remedy for inflamations of the blood or other fluids from which proceeds the St. Antony's Fire, Salt Rheum, and other eruptions of the skin.

BECAUSE PURIFYING THE BODY IS SIMPLE,
Some do not believe it can Cure.

BE not blind—be not stiff-necked. Naman, the Syrian was cured by bathing in the waters of Jordan; and Brandreth's Pills have attributed to them cures almost as miraculous. How different are their claims to public confidence to the medicines recommended in advertisements stolen from me. It is not the first time that wolves have worn the clothing to which they were unentitled. Be not slain by them. Let the public be on their guard: let them be very watchful, or the principles of purgation—second only to Christianity, in the benefits it is capable of bestowing on mankind—will be brought into disrepute, by the evil tendency of some of the medicines recommend to carry out its beneficial effects.

LORAINE'S PILLS:
OR
VALUABLE UNIVERSAL MEDICINE,
CURATIVE,
OF THE
French College of Health, in Paris.

THESE Pills are now acknowledged by thousands, who take them daily, to be the only medicine that fairly takes the Banner from all others. This *Extraordinary Medicine* has actually done WONDERS within one year past all over the inhabited world where it has been introduced. They cause no pain, or uneasiness, of any kind in their operation, and require neither change of diet or care of any kind.

The attention of the readers is respectfully called to the following important results from the use of these Pills. It will be seen, however great achievements have heretofore been made by the use of this invaluable medicine, still greater, and more remarkable cures daily happen.

SWELLING OF THE BODY FROM HEAD TO FOOT, CURED!!

BOSTON, (Mass.) March 10, 1844.

SIR:—About a year since I was taken severely ill, with a swelling of the body from head to foot, so that I was entirely helpless. The doctor advised me to go to the Hospital; for he said he did not understand my case. The persuasion of friends induced me to try Dr. Lorain's Vegetable Pills, which in a few days, produced a great change in my system, by increasing the natural discharges, causing an appetite, relieving the pain, removing the swelling, and giving me strength, and a perfect cure.
MARY JANE FRANCES.

A SEVERE PAIN IN BOTH SIDES, CURED!

LOWELL, (Mass) April 20, 1844.

Sir—For the last few months I have been afflicted with a severe pain in both sides, at times so hard that I could scarcely get my breath. * * * It is a pleasure to feel well—but a much greater one to say that I was cured immediately upon taking 1 dose of Dr Loraine's Pills. J. BROOKS.

A HACKING COUGH CONSTANTLY ANNOYED ME!

BOSTON, (Mass) June 1, 1844.

Sir:—In February last, I took a sudden cold, after which, a hacking cough constantly annoyed me, and this, combined with my other maladies, rendered me truly miserable, as every body told me that I was in a consumption. Since I have taken Loraine's Pills, and now every body tells me that I am well;—I feel as well as ever I did.

NEW PRINCIPLES OF PURGATION,
CORNARO'S
Purifying and Preserving PILLS.

THE American public has for a long time been the victim of a false and dangerous system of medicine founded on the practice of LONG CONTINUED AND UNRELIEVED PURGATION. The evils of this old system are of the most widespread and alarming character. They have reached through every vein and artery of our nation—In every city, and village, and hamlet—in every State and Territory of our vast Republic, will be found those who have suffered, or who are still suffering from the injurious effects of this old system, of whose practical utility the disease, decay, and utter prostration of those who test it furnish the most condemning proofs!

COMMON DRASTIC PURGATION

Scours out the system by the most improper and violent means, and then leave it, weak, low, feeble debilitated, to regain its strength as best it may. Sometimes the consequences of this old Purgative practice are worse than mere Debility. Inflammation of the Bowels, Slow Fever, Bloody Piles, and other horrible disorders are produced, simply from the want of some enlivening and preserving power in the medicine employed. Sometimes the digestive organs are deeply and permanently injured by this coarse and unphilosophical practice, leaving the patient AN INVALID FOR LIFE.

The alarming evils and absurdities of the old system of Purgation, have led to the introduction of a new Life-giving Medicine, called CORNARO'S PURIFYING AND PRESERVING PILLS, which are established on this new and only true principle of Purgation, viz:

NO PURGATION WITHOUT IMMEDIATE RESTORATION.

The use of this admirable Purgative remedy strikes a death blow to that abominable system, which by continually evacuating the bowels without any conservative or saving power, so dreadfully and fearfully prostrates and injures the unhappy patient. These Purifying and Preserving Pills are believed to constitute the perfection of medicine, being a UNIVERSAL VEGETABLE PURGATIVE, containing two great remedies combined viz: One remedy to PURIFY FROM CORRUPTION, and another to PRESERVE FROM INJURY AND DECAY.

And for the purpose of attaining the highest degree of purity in the preparation of these Pills, Dr. Bradlee has, at a vast expenditure of time and money, invented and patented at Washington, a chemical and philosophical apparatus for distilling and refining vegetable extracts, called

THE SEVEN-FOLD FURNACE,

A powerful and novel machine—having Seven Fires and Seven Alembics, with distilling, condensing and evaporating fixtures of a new and ingenious contrivance, capable of obtaining more than seven times the ordinary purity of any vegetable extract heretofore used in compounding medicine. The Balsamic and Preserving power of these Pills is also, by this invention, highly purified and refined, and so mingled with the operative medicine, that it repairs all the injuries created by Purgation as soon as they are caused, and strongly fortifies the system against future corruption and decay.

Let the public be no longer deceived by the advertisements of the "one remedy" doctors, who show their entire ignorance of the organic laws of the human system by supposing that a medicine which purges merely, without renovating or preserving can be a perfect remedy. For it is a fixed and immutable law of our being that there should be, in no case, Purgation without immediate Restoration; and hence it follows, and is proved to demonstration, that all Purgatives which DO NOT possess a saving and preserving power, are injurious, and injurious only—and possess NOT ONE REDEEMING QUALITY.

The whole theory of common drastic Purgation is based upon unnatural and absurd laws, and they who follow it fall victims to their own folly, and too late repent their temerity.

BEWARE OF UNRELIEVED PURGATION! Purge and Preserve, or do not attempt to Purge at all.

The celebrated PURIFYING AND PRESERVING PILLS purify the body from corruption and preserve it from injury and decay by a single operation. They are a Universal Vegetable Purgative, of sovereign use in all diseases of the human system in which purgation is required, particularly in Jaundice, Indigestion, Dyspepsia, Eruptions of the Skin, Scrofula, Piles, Costiveness, Bilious Disorders, Liver Complaint, Fevers, Nervous Disorders, Inward Weakness, Cholic, Dysentary, Worms, Gout, Rheumatism, Female Complaints, Depression of Spirits, Debility of System, Fits, &c., &c.

Price 25 cents per Box, with full directions, Essay on Health and Long Life, &c.

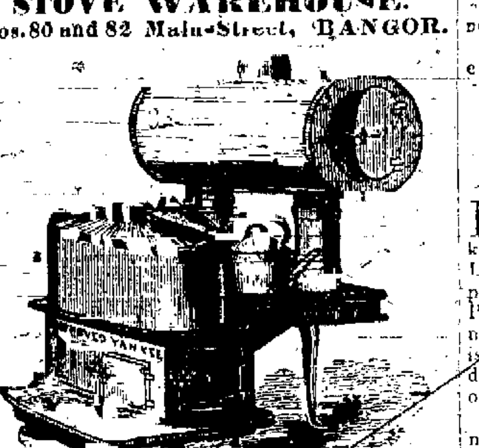
Cheap Cash STOVE WAREHOUSE.
Nos. 80 and 82 Main-Street, BANGOR.



The largest, cheapest and best assortment of Stoves of all descriptions ever offered in this city.

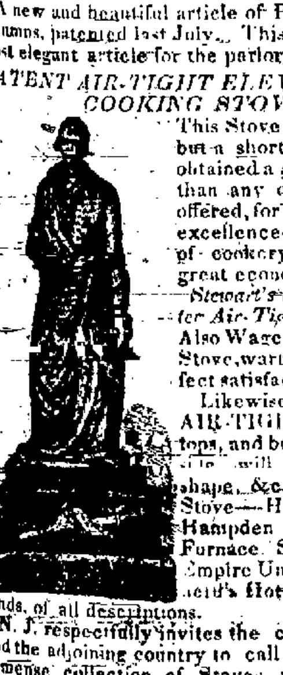
NATHANIEL JOHNSON, as above, has just rec'd and has on hand and for sale, cheaper than ever before offered, the best assortment of Air-Tight Cooking and other STOVES, in the State of Maine. He challenges competition from any quarter in the styles, qualities, cheapness, economy and convenience of his stoves. All in want are advised to give him a call, and thus save money, and enhance their comforts and convenience.

Among his extensive collection of Stoves may be found the following patterns and styles.

The Maine Farmer Cook Stove, which stands unsurpassed—is "the best ever made"—was cast expressly for me, made of the best of stock, is one quarter heavier than usual, and if any one sold does not prove satisfactory, it can be returned any time within 30 days from the sale, and the price paid will be refunded.

A new and beautiful article of Parlor Stove with columns, patented last July. This is decidedly the most elegant article for the parlor ever offered.

PATENT AIR-TIGHT ELEVATED OVEN COOKING STOVES.



This Stove has been on sale but a short time, still it has obtained a greater notoriety than any other Stove ever offered, for its superiority and excellence in every branch of cookery, as well as its great economy in fuel.

Stewart's Summer and Winter Air-Tight Cooking Stove. Also Wager's Air Tight Cook Stove, warranted to give perfect satisfaction.

Likewise the PREMIUM AIR-TIGHT with cast iron tops, and bottoms—lining inside—will keep its color and shape, &c. The Railway Stove—Hathaway Stove—Hampden Stove—Norton Furnace Stove, 4 boilers—Empire Union Stove—Shepherd's Hot Air, and 40 other kinds, of all descriptions.

N. J. respectfully invites the citizens of Bangor and the adjoining country to call and examine his immense collection of Stoves, promising to sell them as cheap as they can be bought at any other establishment in the State. Especially would he caution his country friends against, placing too implicit confidence in those itinerant venders of Stoves to whom they must not only pay a round price for their Stoves, but they are also taxed for horse hire and other heavy expenses in addition.

Please call at 80 and 82 Main-st Bangor.

Orders for Copper, Sheet Iron, or Tin Work gratefully received and promptly executed.

MISCELLANEOUS.

The following sweet little poem is from a pen of a son of Allen Cunningham, the poet:—

Character of a Country Girl's life.

A country girl! what happiness,
Tripping at dew-fall o'er the green,
Rich in herself not in her dress,
Of quiet look and simple mien!

That sings, while working at the wheel,
Soft strains, untutored and untaught,
Sung so the listener learns to feel
The verses and the voice unsought.

And in the merry month of May,
No bird that flits from tree to tree,
And warbles in its own sweet way,
Can happier or blither be.

Her idle thoughts no wants create,
Her rank she suits unto her mind;
Poor but content in her estate,
She all things she can wish can find.

Her heart, made up of innocence,
Of quiet thoughts and calm desires,
She looks to as her best defence,
And feels not that she more requires.

In this she puts her strength and trust,
Happy in health, her bread to earn;
Remembers she's but living dust,
And that to dust itself she'll turn;

Springs with the lark from out her bed,
With Chanticleer retires to rest;
Her's is the purest life that's led,
And her reward will be the best.

LITTELL'S LIVING AGE No 25.

The present number commences a new volume. Those who wish an entertaining work will make themselves acquainted with merits of the Age. It is for sale at the Bookstores in this city, in single numbers or in volumes.

Remarkable Rock.

One of the most remarkable rocks of which we have any knowledge, has been lately discovered, in the middle of the great inland sea, Lake Superior. By a gentleman who has recently returned to this city from Cooper Harbor, we learn that a shaft of Trappe rock has very lately been discovered, rising in the lake from 150 to 200 miles from land, and ascending above the surface of the water the distance of not above four feet. What renders it more extraordinary is, that it stands alone, and all around it, so far as examinations have been made, no bottom has been reached by any of the lead lines used on the lake, and the point of the rock itself does not exceed an area of more than six or seven feet square, and so far as observations of it have extended, it does not appear to enlarge in size as it descends. It has already, he states, become a source of alarm to the mariners who navigate the lake, who take special care in passing, to give it as wide a berth as possible. It is too small—too remote and dangerous to admit of a light, and therefore its removal has become a matter of serious importance, and will doubtless pertain to the duty of Government. A single blast from a bore of sufficient depth would probably do it, but the surface of the rock being so near that of the water, and the space so narrow as to forbid any regular lodgment for workmen, they would have to be attended constantly by a vessel of sufficient size to resist any sudden storm that might arise on the lake and would also have to be kept constantly under way, as no harbor or even bottom is within a day's sail.

The discoverers relate that the rock appears to be a place of general resort for the Salmon Trout of those lakes as they found them there in almost incalculable numbers, having during their short stay, caught several barrels with no other instrument than a rod of iron, on one end of which they turned a hook. They tried with all their lines on board, for a sounding immediately around the rock but without success.—Such a vast column, could it be exposed to view, would laugh to ridicule Cleopatra's Needle, Pompey's Pillar and the Colossus of Rhodes, or any production of ancient or modern art.

[Pittsburgh Amer.

A Precocious Mathematician.

We find the following in the Montpelier (Vt.) Watchman, whose Editor vouches for the credibility of the writer:

There was not long since a notice in the Tribune of a Negro, idiot in other respect, but possessing a wonderful faculty of mental calculation. We have an instance of a similar gift in our own State, more remarkable than the one above alluded to, or perhaps any other of which we have an account, in the person of a son of Truman H. Safford, Esq. of Royalton, now aged only eight years.

This case, however, seems to have but one feature in common with that of the Negro, for this lad has always displayed a wonderful precocity and faculty in comprehending all branches of study to which his attention has been directed. At an earlier age than most children are able to read understandingly, he had thoroughly mastered the Geography in common use in our schools. But his chief *forte* is in mathematical and numerical calculations. The first knowledge his parents had of his power in numbers arose from a little incident, that occurred in his sixth year. He remarked to his mother one day, that if he knew how many rods it was around his father's large meadow, he could tell the measure in barley corns. When his father came in, she mentioned it to him, and he knowing the dimensions of the field, made a calculation, and told the boy it was 1440 rods; the lad after a few minutes gave 617,760, as the distance in barley corns, "in his head," as the common phrase is.

Mr. S. thinking this somewhat remarkable, procured him an Adams's Arithmetic, which he soon mastered. When any question is put to him from this book he will answer it immediately from memory. He will also give the product of four figures by four, performing the operation mentally, nearly as quickly as one can do it with pen and paper. He has also multiplied five places of figures by five, which was the extent of Zerah Colburn's power in his best days. As examples, he gave readily the products of 6842 × 5654—38,684,668; of 9876 × 9858—98,345,208; of 23362 × 21344—4777,294,528; of 84322 × 64262—5,418,700,364. He will extract the square and cube roots of numbers extending to nine or ten places, performing the operation quite rapidly in his head.

The division of numbers into their factors is a favorite amusement with him. Give him the age of a person and he will give the number of seconds correctly. All the questions which are given in the Tribune, as having been proposed to the Negro boy, he answered in the space of fifteen minutes, detecting three mistakes either in the printer or the boy.

He also answered all the examples given in Colburn's life, "in his head," one of the largest being the square of 999,999, product 999,998,000,001. It has been a hobby with him this summer, to measure the fields about his father's house, which he has done correctly, having his little sister, younger than himself, as an assistant, in his surveying excursions. Having obtained some knowledge of the manner of finding logarithms from Gregory's Dictionary, he has formed a table from 1 to 61.

He has some knowledge of Algebra and Geometry, which he has gathered from the articles on these branches in the work above named.—He seems to possess, in addition to the power of performing lengthy calculations in his head, the higher power of comprehending and solving abstruse and difficult questions in the various branches of Mathematics. You can form but an imperfect idea of his wonderful power from the imperfect sketch here given. That it is not exaggerated, many who have witnessed his operations in this vicinity, will readily testify. No efforts have been made to push him into notice; neither has he been urged to exercise his mind in mathematical studies, for the purpose of making a wonder of him. On the contrary, efforts have been made to restrain him, lest he might injure his health.

He has always been rather of a sickly, delicate lad, but he has been improving in health and strength of late. Whether he will lose this remarkable power, as he grows older, or whether it will increase in strength and vigor, is a question time alone can determine. There are good reasons to hope, however, that with suitable and judicious discipline, under capable teachers, he will make one of the most remarkable men yet produced in our country.

Look to the Check Lists.

The Board of Aldermen will be in session at the City Hall tomorrow and the next day for the purpose of correcting the lists of voters. There is no question but that a great many names were added to the Second Ward list at the September election, of persons who have no right to vote in this city. That list should be purged. Will the ward committees or some efficient whig in each ward attend to this matter, and do it immediately. There can be no objection to allowing every legal voter an opportunity to do so, but there is an objection against allowing those who have no right to exercise that privilege so dear to freemen, and so important now.

☞ General Jackson in a letter published in the Nashville Union, denies the accuracy of the statements made by Mr. Adams in his great speech at Boston.

He says, "I pledge my countrymen as soon as I can obtain the papers not now in my possession, referred to in the letter to Mr Brown, to prove not only that Mr. Adams has no cause of complaint against me, but that his veracity, like his diplomacy, cannot be propped up by his '*diary!*'"

If the General gets into a controversy with Mr Adams on this subject he will get most essentially used up.

☞ The "Democrat issued an extra yesterday giving reported votes in several counties in Philadelphia, in the correctness of which we had no confidence. In this extra it is stated that without the electoral vote of Pennsylvania Mr Clay could not be elected. This is not correct or our confidence in the result would have been less strong than it has been or is. Pennsylvania does not, in our judgment decide the election against the Whigs. Of the four large States, Pennsylvania, Ohio New York and Virginia it is necessary that Mr Clay should carry two of them or lose the election. If the Whigs carry two of these States, such is the almost certain prospect of the result in all the other States, that we carry the election, even, should Georgia go against us. Exclusive of either of these four States, and also of Georgia, there are twelve States, giving 100 votes, which are far the most likely to give their votes for Mr Clay. Admitting it to be so, and admitting that Ohio gives her 23 votes for Mr Clay, which we think by far the most probable result, the addition of the votes of either Pennsylvania, New York or Virginia gives the majority to Mr Clay. Mr Polk cannot be elected without the votes of the whole three, which is yet a contingency far from probable.

☞ The New York Aurora states, that Joseph Gundy and Susan Ramson, blacks, have been arrested in New York charged with inflicting injury upon a black woman for violating some of the obligations of a secret society of blacks in that city. It seems that at a meeting of this society the woman was brought forward, her clothes stripped off and her body burned with torches in many places in a dreadful manner. She entered her complaint at the Police Court and hence the arrests.

☞ Elder Joshua V. Himes the second advent lecturer has appeared in the columns of the Boston Post with a defence against the numerous statements put forth, calculated to inflict injury upon his character. He meets the charges against him boldly, and acquits himself effectually. However great may be his errors, he is evidently honest in his transactions with the management of the advent affairs.

☞ The Steamer Telegraph from Eastport for Boston, put into Portland on Saturday afternoon, having broken her shaft. She had 75 to 100 passengers.

Election Returns.

Rhode Island Election.

The Providence Journal gives the result of the election in that State. She has done her duty. Every County gives a handsome majority for Clay and Frelinghuysen, and the total majority surpasses the most sanguine expectations of our friends. We find in this result abundant evidence, if any were wanting, that the radical doctrines of modern mis-named Democracy can find no place in Rhode Island.

The following is the number of votes in the different counties.

	Clay.	Polk.
Providence County,	3755	3186
Newport County,	1180	410
Kent County,	786	361
Bristol County,	589	109
Washington County,	969	711
	7279	4777
	4777	
	2502 majority.	

The vote in the city of Providence was 1836 for Clay—936 for Polk—and 6 scattering. Well done Rhode Island!

Connecticut Election.

A few returns from this State show that the Whig electors will receive the vote of that State. In some of the towns the whigs have gained and in some others the locos have gained, each slightly, since the spring election.

Ohio Election.

The news from this State is heart cheering.—The State is whig to the core.

Nine townships in Belmont county give a Whig gain of eighty votes. The majority in this county will be 300.

Three townships in Jefferson heard from give a great gain. This county will gain 50 whig majority.

Two townships in Guernsey give a gain of thirty votes.

These returns show that Ohio will give the whig electors a large majority!

Pennsylvania Election.

We received by Jerome & Co's. and Gilman's Expresses by the boat yesterday noon, New York and Boston papers, from which we gather the following intelligence:

Fifty counties have been heard from, the returns tolerably authentic, by which it appears that the Polk and Dallas ticket will probably receive a majority of between four and five thousand votes.

We omit a multitude of figures and give the above result, as quite sufficient for all practical purposes.

This result is by no means complimentary to the intelligence of the people of Pennsylvania, indeed it is the consequence of a system of fraud and deception which has hardly a parallel. The Locofoco orators have labored during the whole campaign, and with success it appears, to convince [illegible] portion of the population in the interior, whose very hopes of subsistence rest on the permanency of the present tariff, that *Mr. Polk is more of a tariff man than Mr. Clay!* If by any *hocus pocus*, Mr. Polk should be elected President of the United States, these men will have cause to rue bitterly their agency in elevating such a man to the Presidential chair.

New Hampshire Election.

As every body expected the returns from this State pretty clearly indicate that the Polk and Dallas electors will be chosen by the usual loco foco majority in the State that has a Coos county in it.

Drowned.

At the Corporation Mills in this city, yesterday afternoon, Mr. Joel Longfellow, of Palermo, aged 21 years, was drowned. He was at work upon the boom collecting logs. Those at work in the mills discovered his hat and pick pole adrift near where he was seen but a few minutes previously, and a search immediately commenced, but his body had not been recovered last evening.

Important Decision.

It is stated that Chancellor Kent has prepared an opinion, declaring that all naturalized voters must reside one year where they are naturalized, before they be legally allowed to vote. This opinion, if carried out, will make a difference of at least 3000 votes in the city of New York, alone.

News from Carthage—Mormon Encampment—Excitement of the Hancock People.

WARSAW, 22d October, 1844.

The circuit Court of this county commenced its session at Carthage yesterday. The charge of Judge Thompson is highly spoken of, and the Grand Jury is engaged in examining witnesses in relation to the murder of the Smiths. Sharp and Williams made their appearance in Court as per treaty, and have been at large, awaiting the action of the Grand Jury. *My opinion* is that no indictment will be found against any one—certainly not against Sharp.

One hundred and fifty or two hundred Mormons are encamped within a few miles of Carthage—but for what purpose is as yet a matter of conjecture. There is also a company of Indiana encamped a few miles off, who appear to be there for no purpose known or understood by the citizens.

There is much excitement manifested at Carthage and here, in consequence; and I much fear that an attack will be the result.

Wednesday, 4 P M. Two gentlemen, who went out to ascertain the facts in relation to the Mormon encampment, have returned to Carthage, and report that they went into the encampment, and inquired the object, but could get no satisfactory answer. They saw no arms, but they are fully of the opinion that they have arms concealed in their waggons.

Drowsiness in Public Assemblies.

To the Editor of the Whig & Courier.

It is not always the case that the drowsiness so frequently observed and felt in public assemblies is produced by the dull monotony of an unskillful speaker, neither is it to be attributed in all cases to the voluntary inattention of the hearers, though either, or both of these causes may and often do produce this unpleasant effect. But the principal cause in my opinion, and one that should engage the attention of the public until the evil is remedied, is the lack of a more perfect *ventilation* in our churches and other public buildings.

Every person possessed of the least knowledge of the physical sciences must be aware of the change that occurs in the nature and properties of atmospheric air in its passage through the lungs. When inhaled, it contains the life giving principle that sustains and invigorates the whole man; but when exhaled it is charged with a poisonous gas that has a tendency to lessen and destroy, rather than sustain animal life. It is the same stupifying and destructive gas that is produced in a more concentrated form by burning charcoal, the fatal effects, of which have been so frequently exhibited in the destruction of human life. If our organs of vission were sufficiently delicate to perceive the change in atmospheric air after having passed through the lungs, we should find it highly charged not only with the gas above named, but other impurities which find vent through the same channel, and when reinhaled has a direct tendency to lessen the vital energies, and when oft repeated or long continued to terminate in their final suspension.

How is it with our churches and vestries in this city, where hundreds congregate every week and almost every evening in the week? and remain huddled together for two or three hours with closed doors and windows until the atmosphere becomes so thick that, to use a homely adage you "might cut it with a knife" The effect must be, not only to produce temporary drowsiness, but in many cases as with those of feeble health, lasting and fatal disease.

What reasonable hope of success can a religious teacher cherish, while he *pantingly* addresses a *panting* audience, gasping for the vital principle that prolongs their temporal existence, rather than giving heed to those truths that are calculated to promote their spiritual welfare.

Let all our good clergymen substitute occasionally a plain, matter of fact discourse, on the principles and importance of perfect ventilations not only of churches but all public as well as private buildings, for one of sectarian or controversial nature; and press it home on the minds of those who possess the means and the power to work a reform, until the evil is removed.

Let this be done, let every public house be thoroughly ventilated—and then banish from every church those *insupportable producers* of FILTH, the TOBACCO CHEWERS and thus provide for the decent and respected citizens a clean house and pure air. If after all this is done the clergy have reason to complain of sleepy hearers then I am

CONCERT.

THE
CONGO MELODISTS,
assisted by little
OLE BULL,

WHO have met with unprecedented success in Portland, where they had the honor of giving seven concerts, to fashionable and crowded houses, respectfully inform the inhabitants of Bangor, that they will give their 4th concert, THIS EVENING Nov. 7th, at Brown's Hall.

The Company is composed of five skilful musicians, and from the immense success which has attended them wherever they have appeared, they are confident in promising their auditors the most irresistibly ludicrous as well as scientific entertainment that they have ever listened to. Their Songs are sung in harmony, with five voices, in the style of the Hutchinson family.

The Little Ole Bull, whose remarkable execution upon the violin has been the wonder of the day, will execute a variety of difficult Solos. He is but nine years old, and is admitted by professors of music, to be the best violin player of his age in the world.—He is a pupil of the celebrated Keyser, and bids fair to rival the old Ole Bull, who is now exciting so great a sensation.

Names of Performers and Instruments.

J. L. Buckley,	basso,	Triangle.
R. Buckley,	tenor,	Tambo.
Little Ole Bull,	counter tenor,	Violin.
G. Sweeney,	alto,	Banjo.
